Are you interested in learning more about the Next Generation Science Standards?

Are you interested in learning how to implement 3D science lessons in your classroom?

This two week workshop will introduce the vision of science education presented in the Next Generation Science Standards. During the workshop, teachers will have opportunities to learn science while engaged in 3D lessons and examine authentic student work from 3D lessons. Workshop cumulative project will involve building and receiving feedback on your own 3D science unit.
